## CONDITION OF THE MARKETS

THEO. P. HAUGHEY, Pres't. E. E. REXFORD, Cash'r.

Wheat Steady, with Very Light Sales on a Generally Fair Weather Report.

Corn Stronger on the Visible Supply Showing -Oats Quiet and Easier-Hog Products Slightly Lower but Closing Firm.

MONEY, STOCKS AND BONDS.

An Active Market and Sharp Advances in Trusts, with Dull Trade in Balance of List. NEW YORK, June 24.-Money on call was easy at 212@3 per cent., the last loan being made at 112, closing offered at 112.

Prime mercantile paper 334 @512 per cent. Sterling exchange dull but steady at \$4.87 for sixty-day bills, and \$4.8834 for demand. The total sale of stocks to-day were 159,-662 shares, including the following: Atchison, 12,025; Delaware, Lackawanna & Western, 11,350; Northwestern, 3,700; Northern Pacific preferred, 4,250; Reading, 10,665; St. Paul, 15,420; Union Pacific, 5,900; Western Union, 3,455.

The stock market was all one-sided, and the preponderance of the speculation was once more in the trusts, while railroad shares were comparatively neglected, there being no real activity in any of them, while only five showed any animation whatever. The trusts, on the other hand, were extremely active and decidedly strong, and for the first time since the formation of the unlisted department the transactions in that class of securities exceeded those in the regular list. The movement in the latter was small and unimportant, while there was a general drooping tendency caused by the scalping operations of the traders on the "bear" side. The Western railway advices were again un-Western railway advices were again unfavorable, and further cuts were reported on the part of the "Soo" line, and the meet-ing of the presidents of the roads in the Interstate Association was postponed because of the inability to get a quorum to-gether. There were further good advices from the growing crops, but these seemed to have little influence. The grangers and the Gould stocks were leaders in the downward movement, but in none of them were the fluctuations of special importance. Chicago & Eastern Illinois, on the improvement in the earnings, showed positive strength, and the preferred, with Chicago Gas, was the only stock which showed a material advance.

Among the trusts the dealing were enormous, and the excitement at times intense. Sugar took the lead in the upward movement, but National led in the amount of transactions. The former was helped by the steady rise in the value of sugar abroad, and the reduction in the estimates of the beet-root crop in Europe, and the buying was largely by insiders, and in the first fifteen minutes the stock rose to 126 against 11814 on Saturday evening. Heavy realizing sales followed the sharp advance, and it moved back to 12114, but closed at 123, a net gain of 434 per cent. Lead was bought on rumors of the acquisition of the Atlantic works, although the news could not be authenticated. Cotton-oil alone remained within comparatively narrow limits, though a large business was done in the stock. The market closed quiet but firm at irregular changes for the The sales of unlisted stocks reached a total of 184,786 shares, to which National contributed 141,565; Cotton-oil, 8,847, and Sugar Trusts, 20,169. Lead closed at an advance of 35s per cent. in the regular list. Chicago Gas is up 13s, and Chicago & Eastern Illinois preferred 112, but the other changes are irregular and

fractional only. There was a falling off in the amount of business done in railroad bonds, but the general tone of the market was firm and a few issues made marked advances for the day. The sales of all issues aggregated \$1,433,000, of which Chesapeake & Ohio lives contributed \$122,000 and Reading fours \$103,000. The only special feature was a smart rally in the Hocking Valley issues, which rose—the fives 212, to 6814. The Burlington & Quincy consolidated declined 2,

TRADING AT CHICAGO. The Ups and Downs of the Market, with the

Range in Prices of Leading Articles. CHICAGO, June 24 .- There was little doing in wheat. Outside orders were scarce. and local operators were content with watching the market. Fluctuations were slight and the market ruled steady. There was nothing in outside news to especially affect prices. Early the market eased off 3sc for July, and then advanced 12c, closing about the same as Saturday. August closed 4c higher, and December 4c higher, with July and December selling at times close together, and the difference at the close was only 4c. The weather was an improvement over that of the past six weeks, and was warmer and hazy, the weather bulletins showing cloudy weather and slight rain in the Northwest and Southwest, and clear in the West. Mail advices from the Northwest are not altogether favorable, and some letters were shown today which indicate a rather poor showing, in the southern portion of Minnesota and Dakota. Liverpool advices quoted a firmer tone, due to the fine weather, with Russian wheat, quoted through private sources, 6d higher. A large business was transacted in Dry-salt meats-Shoulders, 5.25c; longs and ribs, corn, which was fairly distributed through- 6.05 & 10c; short clear, 6.15 & 6.20c. Baconout the nearest and distant futures. The bulk of the trading, however, was in the covering of the "shorts" in July, and changing trades from July to September, the former being bought and the latter sold. The difference also narrowed slightly, being 58@ 38c. The fine weather, fair arrivals and the quietness in domestic markets made operators rather bearish at the epening, but the decrease in the visible

supply rather changed the sentiment, and as offerings were small, a strong feeling developed, and after a decline of 1sc at the opening, a rally of 4@

3sc followed. Numerous small recessions from outside prices followed
the rallies, but last sales were at a trifle the rallies, but last sales were at a trifle above Saturday's prices. Oats were quiet and easier and trading was chiefly local. A very light business was transacted in hog products. Receipts of hogs were considerably larger than were generally anticipated, and this had a weakening influence on the course of the market. However, the offerings were light, and sellers slow to grant concessions and buyers were backward about taking hold until near the close. Prices declined slightly on all the leading articles, and the market closed firm. The leading futures ranged as follows:

The Foreign Grain Trade. LONDON, June 24 .- The Mark Lane Express, in its review of the British grain trade during the past week, says: "The weather favors the wheat crops, except in the heavier soils, which will need dry weather during July. The sales of English wheat of the past week were 125,000 quarters, a fair quantity for a mid-summer week. The foreign trade is improving, though there is no quotable advance in prices. India is occasionally 6d dearer. Foreign barley is 3d dearer. Oats are firm. Beans and peas are weaker. In off-coast trade Danubian wheat touches 28s, and California 33s, though they closed firmer on the week. Russian barley was 6@9d dearer, and corn was 3d dearer. At to-day's mar-ket English wheat was 6d dearer, and India 1s dearer. American and California tended in sellers' favor.

MINNEAPOLIS, June 24.—For the best grades

MINNEAPOLIS, June 24.—For the best grades of milling wheat sellers were asking about Saturday's prices, and sales were made at unchanged quotations when the purchaser happened to be pleased with some special lot. Buyers were holding off, evidently frightened a little by the fine board. Heavy receipts were also a depressing feature, and on all classes of wheat below best sample of No. 2 sellers were forced to make concessions. The liberal decrease in local elevator stocks had no terrors for buyers. Local millers were taking most of the purchases. Receipts for the two days were 241 cars and 53 were shipped. NEW YORK, June 24.—There was a sudden change in the trading in the petroleum market to-day, and instead of the duliness recently preto-day, and instead of the dullness recently prevailing, there was heavy trading, wide fluctuations and intense excitement, all incident to an advance of 11½ and a reaction of 5c, making the day the most active for eighteen months. The advance was based on an advance of 20 points in the price of refined oil and on a report that the producers had exercised their option which would expire on July 1, and delivered the Standard Oil Company 3,500,000 barrels at 90c. The opening was firm at 83%, and the price advanced slowly in the first two hours, reaching 84% at noon. Then the news of an advance in the price of refined from 6,90c to 7,10c caused a 84%c at noon. Then the news of an advance in the price of refined from 6.90c to 7.10c caused a scare among the "shorts," and when they tried to cover they found no oil for sale. Buying by Standard Oil brokers, however, operators rapidly ran the price up, and in less than half an hour it reached 95c. A sharp reaction then set in and the price fell to 88c, but the buying by the Standard Oil brokers and big producers continued, and the market closed steady at 904c. ### INDIANAPOLIS MARKETS.

Trade Good, Considering the Near Approach to Midsummer, with Firm Prices Prevailing.

INDIANAPOLIS, June 24. Trade opened to-day fairly active. Sugars advanced another 18c, hens 12c, and young chickens 1c per pound. In the grocery market there was a good trade in progress. Coffees, teas and other staple articles rule steady, sugars only advancing. In the produce markets, as usual on Monday, it was rather quiet. Receipts of small fruits were light, and firm prices prevailed at about Saturday's range. Early vegetables of home growth are so abundant that stock shipped in must be sold low. Old potatoes are selling slow, as new potatoes have dropped to prices that increase the demand. The wool market carries a firm tone, and most of the new clip is thought to have passed into the hands of the dealers. The flour market rules strong on an increasing demand. The hide market is still flat, and the future outlook is not particularly encouraging. Leather dealers report trade fair for June. Hardware men are baving a brisk trade. Dealers in paints and oils report it one of the best seasons in many years. Other markets present no new features.

The local market was firm all along the line wheat, corn and oats all being in good demand at prices quoted, which ranged as follows: Wheat—No. 2 red, 83@83½c; No. 3 red, 74@79c; rejected, 65c; July, 75@75½c.

Fighting Their Battles O'er.

War Veteran, with arm gone (to comrade)

and buried he will still feel it ache or smart sometimes. Well, the other day when it rained so in Pennsylvania I felt the old rheumatism in my wrist that was buried at Comrade, with leg off—O that's nothing. My leg was buried in that field over there, and the other day I felt my corn ache so bad I couldn't stand it. So I went over

-You know, even when a man's arm's off

that way to see what was the matter, and there stood dad right over the spot, shelling the corn for the chickens. I got him to stop and then I was all right again.

W. V.—What'll you take? Advantages of a Turnip Crop.

Turnips are grown so quickly and so late in the season that they are almost a sure

crop when many others fail. The yield is very large, and their keeping qualities are excellent. Though largely composed of water, with a nutritive value low compared with grain and hay, yet their succulence and bulk, in the winter season, place them high in the list of foods, as affording an agreeable change from the dry food of winter, and when fed in connection with grain the combination gives better results than when grain or turnips are fed sep-arately. They can be kept in pits outside the barn, but it is better to store them in the barn cellar for convenience of access in

very cold weather.

## DAILY, SUNDAY AND WEEKLY.

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal. By the display of enterprise and strict attention to the wants of the reading public, during the great campaign of 1888, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana, and has correspondents in every town and village of importance. Its market report are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press), in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the Indianar-OLIS JOURNAL a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contempo-

No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interest of the Republican party, the JOURNAL will not allow its news to be collored by partisan bias, but will give the news of the day without fear or

Owing to the prominence of Indiana in the next administration, the JOURNAL will give particular attention to Washngton news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the next four years.

In addition to its new features, the JOURNAL regales its readers with the productions of some of the best known llterary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for the household and home circle. Special arrangements have been made for features of this character, which will appear in the Journal during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY JOURNAL.
